Joana caught her first wave on a bodyboard at the age of 13, and from that day on, she never stopped. Prioritizing the sport, she managed to finish high school while simultaneously pursuing her dream of becoming a professional athlete. Today, she has won numerous national and European titles and is considered one of the most talented and stylish riders in the world.

Competing on the World Tour was the natural next step to continue pushing her limits. In only her second season on the APB World Tour, Joana won the APB World Title and made history by becoming Portugal's first professional world champion in wave riding sports.

Always focused and training for even greater achievements, Joana is now also actively involved in her social and environmental project, raising ocean awareness. In her free time, she models for renowned fashion and beauty brands.
